

COMPLETE  
CANCER CARE  
CLOSE TO HOME

## NAZHA CANCER CENTER

Nazha Cancer Center is unique not only in its complete approach to cancer care, but also in the relationships built through the process between patients and caregivers as well as among doctors.

The staff prides themselves on the compassion they provide to both their patients and the patients' families every step of the way. Only personnel that consider and respect the human aspects of patients' lives work at Nazha Cancer Center. This ideal creates an environment in which patient comfort and care is the top priority.

Collaborative relationships with physicians in the surrounding South Jersey and Philadelphia areas facilitate referrals for patients to receive needed treatment close to home. This allows patients further convenience to make return visits for monitoring and follow-up care once a treatment program is completed, as well as encourages an advantageous dynamic between medical professionals.

### IT'S THE MOST IMPORTANT DECISION IN LIFE: WHERE TO GO FOR CANCER CARE.

Choosing the best facility for cancer care requires careful consideration. The latest technology, optimal treatment and a medical staff committed to compassion are among the standards at the forefront of every patient's mind.

*There is only one choice.*

Headed by board-certified medical oncologist Naim T. Nazha, M.D., Nazha Cancer Center offers a full scope of patient care, from diagnosis to therapy, right here in Atlantic County.

#### OUR MISSION

To serve the needs of cancer patients in Southern New Jersey, allowing them to receive excellent care and treatment while remaining close to their homes and families.

## MEET OUR TEAM

THE MOST POWERFUL,  
PRECISE CANCER TREATMENT  
IN THE WORLD

VARIAN TRILOGY™ LINEAR ACCELERATOR

### *Naim T. Nazha, M.D.*

Dr. Nazha, a local Linwood resident, is board-certified in medical oncology and internal medicine. He completed his hematology/oncology fellowship at University of Medicine and Dentistry Robert Wood Johnson Medical Center. Throughout his career, he has served as Chief Attending Physician in the Department of Medicine, Director of the Division of Medical Hematology and Oncology and Director of Hospice at AtlantiCare Regional Medical Center. Dr. Nazha has been in private practice since 1987, and is dedicated and compassionate in the care of his patients.

Dr. Nazha has a medical staff membership as an attending physician at AtlantiCare Regional Hospitals and Shore Memorial Hospital; membership as a consulting physician at Bacharach Institute for Rehabilitation. His professional memberships include:

- American Medical Association
- Medical Society of New Jersey
- American Society of Clinical Oncology
- American College of Physicians

### *James G. Dalzell, M.D.*

Dr. Dalzell is a graduate of Yale University and Rutgers' Medical School. He received his training at the Cleveland Clinic, where he was the Chief Resident. He is board-certified and has practiced radiation oncology in South Jersey since 1992. Dr. Dalzell is a kindhearted physician—devoted to delivering exceptional care to the wonderful patients he treats. Dr. Dalzell, his wife, Lori, and their three children reside in Linwood.

Dr. Dalzell has a medical staff membership at AtlantiCare Regional Hospitals and Shore Memorial Hospital. His professional memberships include:

- American Medical Association
- Medical Society of New Jersey
- American Society for Therapeutic Radiology and Oncology (ASTRO)

### *Nursing & Support Staff*

Nurse Manager/Patient Educator Doreen Petrone, RN, leads the nursing staff and has worked with Dr. Nazha since he opened his practice. Whether full time or part time, the entire nursing staff is committed to providing quality and compassionate care as well as patient and family education to assist in understanding the disease process and necessary treatment.

Working intimately with patients on a daily basis, our radiation therapists thrive to ensure comfort and security through each treatment.

Our support staff is available to assist patients with all financial and insurance needs. The personable team schedules patient tests and handles extensive insurance paperwork with the objective of making patients' visits easy and comfortable.

## FROM DIAGNOSIS TO TREATMENT

Patients come to the Nazha Cancer Center with different needs. Some patients are being diagnosed for the first time. Many are referred by their primary physician. Others come seeking a second opinion. No matter what brings them to our facility, each person is seeking the same thing: the latest technology and the best care.

Boasting the best in diagnostic and therapeutic care in the region, Nazha Cancer Center is equipped with the latest technology, aiding in everything from determining cancer at its earliest onset (GE Discovery™ VCT-PET/CT System) to providing the most powerful tumor-destroying treatment (Varian Trilogy™ Linear Accelerator).

Tests and treatments available at Nazha Cancer Center include:

- PET & CT Scans
- PET/CT Fusion
- IGRT – Image-Guided Radiotherapy
- IMRT – Intensity-Modulated Radiotherapy
- SRS – Stereotactic Radiosurgery
- RPG – Respiratory Gating
- Chemotherapy & Infusion
